The STINGER®

MOISTURE DEFENSE SYSTEM

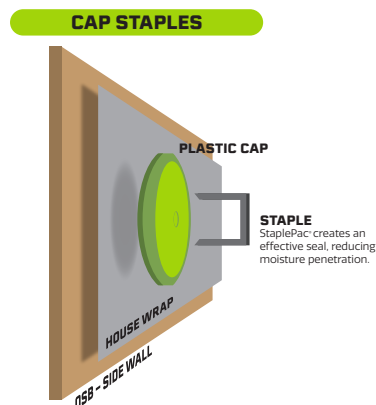

At STINGER, we challenge the status quo and refuse to settle for the way it's always been done. We exist to build differently ensuring your peace of mind extends far below the surface. Our EXO synthetic underlayment is engineered to repel water and protect the roof deck from moisture penetration. Combine our synthetic underlayment with our collated cap fasteners to create a moisture barrier that's tested and approved in winds up to 180mph. Because when it comes to protecting your home- **it's all about what lies underneath.**

ROOFING MOISTURE DEFENSE

SIDE WALL MOISTURE DEFENSE

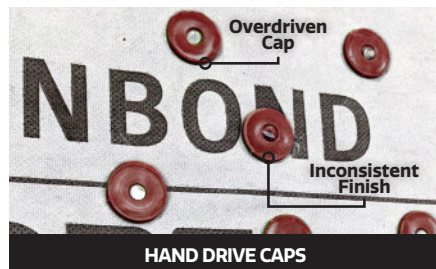

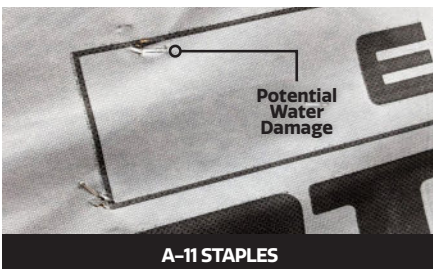

WHY CAPS ARE IMPORTANT TO SECURING UNDERLAYMENT

- Most shingle manufacturers require the use of a cap for adherence to their warranties.
- The Insurance Institute for Business & Home Safety (IBHS) recommends the use of cap nails to extend the life of your roof through their Fortified Roof™ program.
- Caps are an important component of a complete moisture management system—especially if shingles blow off in the event of a storm.

WHY CHOOSE STINGER® NAILPAC®?

- NailPac is tested and approved for winds up to 180 mph– staples alone fail at 50 mph.
- NailPac helps create an effective seal, reducing moisture penetration compared to A-11 staples.
- NailPac can withstand UV exposure up to 10x longer than Hand Drive Caps.
- NailPac delivers a consistent finish every time—compared to hand drive caps that are prone to over driving.
- Installing NailPac with the STINGER CN100B Cap Nailer is one of the safest ways to secure underlayment as it provides three points of contact with the roof, unlike swinging a hammer to install hand drive fasteners.

CN100B CAP NAILER

THE ONLY WAY TO LAY IT DOWN

The **STINGER® CN100B** is our premier pneumatic cap nailing innovation. When you need to quickly and safely lay down underlayment, this is the tool for you. And with a fastener capacity of 200 caps and nails, reloading is easy and efficient – another time saver.

FOR EXCLUSIVE USE WITH NAILPAC

- Shoots 1 in. x .083 nails with full 1 in. plastic caps
- Holds 200 caps and 200 nails
- Fires 5 cap nails per second (max. cycle rate/second)
- Choose between bump fire or sequential fire mode
- Tool-free depth of drive adjustment
- Lightweight, compact design
- 360° tool-free adjustable exhaust
- Carrying case included

STINGER NailPac

- For use with STINGER CN100B & CN100 Cap Nailer only
- 2000 ct. box
- 10 reels of 200 collated plastic caps
- 10 coils of 200 ring shank nails
- Each NailPac covers approximately 30 square*
- Meets ASTM F1667 requirements
- Florida Product Approval – FL35349

CS150B CAP STAPLER

A STAPLE IN BETTER BUILDING

The **STINGER® CS150B** offers builders proven performance in a versatile tool perfect for roofing and sidewall installations. The CS150B is the best practice for securing synthetic underlayments, roofing felt, foam board, and housewrap.

FOR EXCLUSIVE USE WITH STAPLEPAC

- Shoots 5/8 in., 7/8 in., 1 ¼ and 1 ½ in. 18GA staples with full 1 in. plastic caps
- Holds 200 caps and 200 staples
- Fires 5 cap staples per second (max. cycle rate/second)
- Choose between bump fire or sequential fire mode
- Lightweight, compact design
- 360° tool-free adjustable exhaust
- Carrying case included

STINGER StaplePac

- For use with STINGER CS150B & CS150 Cap Staplers only
- 2000 ct. box
- 10 reels of 200 collated plastic caps
- 20 strips of 100 staples made from Galvanized wire
- Each StaplePac covers approximately 30 square*
- Meets ASTM F1667 requirements

*30 square for all standard applications of synthetic underlayment, if installation instructions are followed correctly.

CH38-2

CAP HAMMER

The **STINGER® CH38-2** is the economical, non-pneumatic alternative to stapling. The CH38-2 is an award-winning champion for installing housewrap, underlayment, and rolled insulation.

FOR EXCLUSIVE USE WITH STAPLEPAC

- Increased weld and strength on cutter and trigger areas
- Increased internal handle strength
- Improved staple track and spring design
- Added handle grip to aid performance

STINGER StaplePac

- For use with STINGER Cap Hammers only
- 2016 ct. box
- 12 reels of 168 collated plastic caps
- 24 strips of 84 staples made from Galvanized wire
- Each StaplePac covers approximately 30 square*
- Meets ASTM F1667 requirements

0136420	3/8 in. (9.5mm) StaplePac	2016	6

*30 square for all standard applications of synthetic underlayment, if installation instructions are followed correctly.

CH38A CAP HAMMER

The **STINGER® CH38A** is our non-pneumatic autofeed cap hammer, which is ideal for installing housewrap and underlayment. Unlike the CH38-2, the CH38A does not require a trigger to advance the cap – it advances with each strike.

FOR EXCLUSIVE USE WITH STAPLEPAC

- Trigger free operation
- Improved track and feed spring design
- Easy to load
- Compact design
- Improved staple collation

STINGER StaplePac

- For use with STINGER Cap Hammers only
- 2016 ct. box
- 12 reels of 168 collated plastic caps
- 24 strips of 84 staples made from Galvanized wire
- Each StaplePac covers approximately 30 square*
- Meets ASTM F1667 requirements

EXO CO-BRANDING

STINGER® offers a great marketing opportunity for contractors to co-brand with the STINGER brand on our EXO50, EXO35, and EXO25 synthetic underlayment. Co-branding on STINGER underlayment is an effective form of advertising for the contractor in the neighborhood.

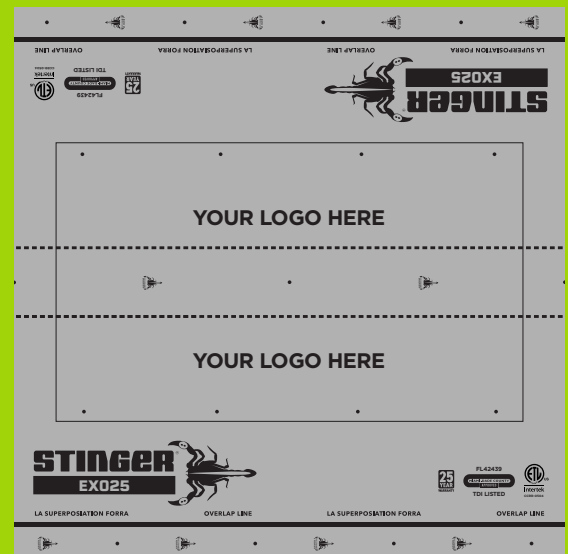

Contact your STINGER sales representative for details on the STINGER EXO synthetic underlayment co-branding program.

Logo size for co-branding: 40" x 24"

Scorpion size is 18" x 18"

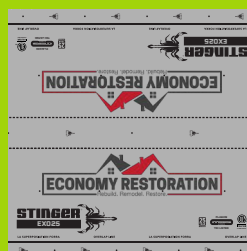

STINGER name is 23" x 6"

No plate charges apply – a savings of at least \$500!

STANDARD COLOR

- 4 pallet minimum purchase
- Black for EXO25, EXO35, and EXO50
- No custom colors

COLOR OPTION

- 6 pallet minimum purchase
- Custom colors can be any choice
- Up to 3 colors

For those who want best practice and prefer to hand drive cap nails for roofing underlayments, felt, foamboard, and housewrap, **STINGER® HandDrive** offers a variety of economical plastic and steel cap fastening solutions.
